Acura Recall Notification

2014 Model Year Acura RLX
2014-2015 Model Year Acura MDX
Front Seatbelts

NHTSA Recall Date: October 7, 2014
NHTSA Recall Number: XX-XXX

Recall Defect Description:
Very low temperatures (below -8°F) may affect the ability of the driver's and front passenger's seatbelt to extend or retract.

Safety Risk:
A seatbelt that cannot be used properly by the seat occupant increases the risk of injury or crash.

Recall Remedy:
The owners of all affected vehicles will be contacted by mail and asked to take their vehicle to a Honda automobile dealer. The dealer will replace the driver's seatbelt and the passenger's seatbelt, free of charge. Because the new vehicle warranty on all affected vehicles would have provided a free repair for the problem addressed by this recall, without any payment by the owner, reimbursement for pre-notification repairs will not be offered. Notification to customers about this recall is expected to begin on October 23, 2014.

Honda Recall Number: Acura MDX - JK7
Acura RLX - JK8
