## Customizing Settings Using the MID

Six groups of settings can be programmed using the MID*: Adaptive Cruise Control (ACC) Setup (if equipped), Meter Setup, Position Setup, Lighting Setup, Door/Window Setup, and Wiper Setup.

### ◆ Modifying the Auto Door Unlock Setting

As the default setting, only the driver's door unlocks when you shift to Park. Follow the steps below to set all doors to unlock when you shift to Park:

Press the Info button to toggle to the "Keyless Memory Settings" display, then **press** SEL/RESET to activate the menu.

SEL/RESET button

Info button

1. **Select** "CHG SETTING."

KEYLESS MEMORY SETTINGS

Each remote (labeled 1 or 2 on the back) activates its own set of programmable audio, climate, driving position memory, and customized settings (MID).

Checkpoint

1. Verify that you are using the correct remote by inserting the key in the ignition switch and turning to ON (II).

2. Check the MID:

• If you have the correct remote, the driver ID that first appears on the MID will match the ID number on the back of your remote. **Go** to step 3.

Welcome
DRIVER 1

DRIVER 1

• If the numbers do not match, follow these simple instructions:

- **Remove** the key from the ignition switch.

- **Press** the unlock button on your remote.

- **Insert** the key into the ignition switch, **turn** to the ON (II) position, and **check** the MID. The driver ID that first appears on the MID should now match the number on the back of your remote.

Welcome
DRIVER 2

DRIVER 2

3. Once you have the correct remote, you can begin to program your Keyless Memory Settings.

Customizing Settings

Some examples on how to program vehicle settings.

◆ Storing Audio and Climate Control Settings

1. **Turn** the ignition switch to ON(II).

2. **Store** your desired stations on the preset buttons and **adjust** your preferred audio sound levels (BASS, TREBLE, etc.).

3. **Set** your preferred climate control settings (fan speed, temperature, etc.).

4. Once you turn the car off, your preferred settings are saved and activated by the corresponding remote (1 or 2).

◆ Driving Position Memory System (DPMS)

1. **Turn** the ignition switch to ON (II). **Shift** into Park (P).

2. **Adjust** your preferred seat, steering wheel, and outside mirror settings.

3. **Press and hold** the MEMO button until you hear a beep, then release.

4. **Press and hold** the memory button # corresponding to the remote (1 or 2) you are using until you hear two beeps.

Note: Each group of settings is activated by the corresponding remote transmitter (1 or 2) when it's used to unlock the driver's door. When activated, each item begins to adjust before you enter the vehicle.

* See Customized Settings in your owner's manual for other programmable settings.
