

## Customizing Settings Using the MID

Six groups of settings can be programmed using the MID\*: Adaptive Cruise Control (ACC) Setup (if equipped), Meter Setup, Position Setup, Lighting Setup, Door/Window Setup, and Wiper Setup.

### Modifying the Auto Door Unlock Setting

As the default setting, only the driver's door unlocks when you shift to Park. Follow the steps below to set all doors to unlock when you shift to Park:

Press the Info button to toggle to the "Keyless Memory Settings" display, then press SEL/RESET to activate the menu.

1. Select "CHG SETTING."

2. Select "DOOR/WINDOW SETUP."

3. Select "AUTO DOOR UNLOCK."

4. Select "SHIFT TO P."

5. Select "ALL DOORS."

6. Once the setting has been saved, select "EXIT."

\* See Customized Settings in your owner's manual for other programmable settings.

## KEYLESS MEMORY SETTINGS

When linked, each remote (labeled 1 or 2 on the back) activates its own set of programmable audio, climate, driving position memory, and customized settings (MID).

### Checkpoint

1. Verify that you are using the correct remote by inserting the key in the ignition switch and turning to ON (II).

2. Check the MID:

- If you have the correct remote, the driver ID that first appears on the MID will match the ID number on the back of your remote. Go to step 3.

- If the numbers do not match, follow these simple instructions:

- Remove the key from the ignition switch.

- Press the unlock button on your remote.

- Insert the key into the ignition switch, turn it to ON (II), and check the MID. The driver ID that first appears on the MID should now match the number on the back of your remote.

3. Once you have the correct remote, you can begin to program your Keyless Memory Settings.

## Customizing Settings

Some examples on how to program vehicle settings.

### Storing Audio and Climate Control Settings

1. Turn the ignition switch to ON(II).
3. Set your preferred climate control settings (fan speed, temperature, etc.).

2. Store your desired stations on the preset buttons and adjust your preferred audio sound levels (BASS, TREBLE, etc.).
4. Once you turn the car off, your preferred settings are saved and activated by the corresponding remote (1 or 2).

### Driving Position Memory System (DPMS)

1. Turn the ignition switch to ON (II). Shift into Park (P).
3. Press and hold the MEMO button until you hear a beep, then release.

2. Adjust your preferred seat, steering wheel, and outside mirror settings.
4. Press and hold the memory button # corresponding to the remote (1 or 2) you are using until you hear two beeps.

Note: A stored memory position is linked to the corresponding keyless remote (1 or 2). Each item begins to adjust when you unlock the driver's door with the remote and enter the vehicle.

\* See Customized Settings in your owner's manual for other programmable settings.
