

Rear Cross Traffic Monitor*

Alerts you if a detected vehicle is approaching from a rear corner when your vehicle is in Reverse (R) at speeds of 3 mph (5 km/h) or lower, which can be helpful when backing out of parking spaces.

The system does not detect or provide alerts for a vehicle that is moving away from your vehicle, and it may not detect pedestrians, bicycles, or stationary objects.

■ Turning the System On or Off

Use the interface dial to make selections.

1. Press the SETTINGS button.
2. Select Camera Settings.
3. Select Cross Traffic Monitor.
4. Select On or Off.
5. Press BACK to exit the menu.

⚠ CAUTION

This system cannot detect all approaching vehicles and may not detect an approaching vehicle at all.

Failure to visually confirm that it is safe to back up the vehicle before doing so may result in a collision.

Do not solely rely on the system when reversing; always also use your mirrors, and look behind and to the sides of your vehicle before reversing.
