

# AUDIO AND CONNECTIVITY

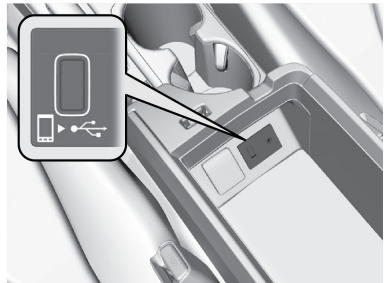

Learn how to operate the vehicle's audio system.

## Basic Audio Operation

Connect audio devices and operate buttons and displays for the audio system.

### ■ USB Port\*1

Install the device USB connector or the USB flash drive to the USB port.

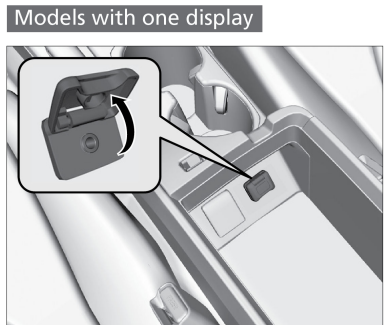

**Tip:** To prevent any potential issues, be sure to use an Apple MFi Certified Lightning Connector for Apple CarPlay™ or a USB cable certified by USB-IF to be compliant with USB 2.0 Standard for Android Auto™.

### ■ Auxiliary Input Jack

Use the jack to connect standard audio devices.

1. Open the AUX cover.

Models with one display

\*1 - If equipped

2. Connect a standard audio device to the input jack using a 1/8 inch (3.5 mm) stereo miniplug.

Models with two displays

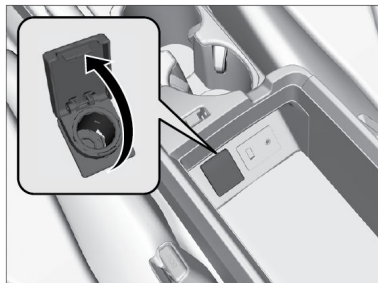

### ■ Accessory Power Socket

The accessory power socket can be used when the power mode is in ACCESSORY or ON.

#### Console compartment

Open the console lid and the cover to use it.

### NOTICE

Do not insert an automotive type cigarette lighter element. This can overheat the power socket.
