

USB Ports

Install the iPod USB connector or the USB flash drive to the USB port.

■ In the glove box

The USB port (1.0A) is for playing audio files on a USB flash drive and connecting a cellular phone and charging device.

■ In the console compartment

The USB port (1.5A) is for charging devices, playing audio files and connecting compatible phones with Apple CarPlay or Android Auto.

- ▶ To prevent any potential issues, be sure to use an Apple MFi Certified Lightning Connector for Apple CarPlay, and for Android Auto, the USB cables should be certified by USB-IF to be compliant with USB 2.0 Standard.

☒ USB Ports

- Do not leave the iPod or USB flash drive in the vehicle. Direct sunlight and high temperatures may damage it.
- We recommend using an extension cable with the USB port.
- Do not connect the iPod or USB flash drive using a hub.
- Do not use a device such as a card reader or hard disk drive, as the device or your files may be damaged.
- We recommend keeping your data backed up before using the device in your vehicle.
- Displayed messages may vary depending on the device model and software version.

If the audio system does not recognize the iPod, try reconnecting it a few times or reboot the device. To reboot, follow the manufacturer's instructions provided with the iPod or visit www.apple.com/ipod.

☒ USB charge

The USB port can supply up to 1.0A/1.5A of power. It does not output 1.0A/1.5A unless requested by the device.

For amperage details, read the operating manual of the device that needs to be charged.

Set the power mode to ACCESSORY or ON first.

Under certain conditions, a device connected to the port may generate noise to the radio station you are listening to.

Audio Remote Controls

Allows you to operate the audio system while driving.

SOURCE Button

Cycles through the audio modes as follows:
 FM→SiriusXM®*→USB→iPod→Pandora®*→
 Apps*→**Bluetooth**® Audio→Audio Apps*

Left Selector Wheel

Roll Up: To increase the volume.

Roll Down: To decrease the volume.

Push: To mute. Push again to unmute.

- When listening to the radio
 - Move to the right:** To select the next preset radio station.
 - Move to the left:** To select the previous preset radio station.
 - Move to the right and hold:** To select the next strong station.
 - Move to the left and hold:** To select the previous strong station.
- When listening to an iPod, USB flash drive, or **Bluetooth**® Audio
 - Move to the right:** To skip to the next song.
 - Move to the left:** To go back to the beginning of the current or previous song.
 - Move to the right and hold:** To skip to the next folder.
 - Move to the left and hold:** To go back to the previous folder.
- When listening to Pandora®*
 - Move to the right:** To skip to the next song.
 - Move to the right and hold:** To select the next station.
 - Move to the left and hold:** To select the previous station.

Audio Remote Controls

Some mode appears only when an appropriate device or medium is used.

Playing FM Radio

*1: Some or all of the lists may not be displayed.

■ Preset Memory

To store a station:

1. Tune to the selected station.
2. Select and hold the preset number for the station you want to store.

You can also store a preset station by the following procedure.

1. Tune to the selected station.
2. Select the open/close icon to display a list.
3. Select the **Preset** tab.
4. Select and hold the preset number for the station you want to store.

■ Station List

Lists the strongest stations on the selected band.

1. Select the open/close icon to display a list.
2. Select the **Station List** tab.
3. Select the station.

■ Manual update

Updates your available station list at any time.

1. Select the open/close icon to display a list.
2. Select the **Station List** tab.
3. Select **Refresh**.

☒ Preset Memory

The **ST** indicator appears on the display indicating stereo FM broadcasts.

Switching the Audio Mode

Press the **SOURCE** button on the steering wheel or select **SOURCE** on the screen.

▶ **Audio Remote Controls** P. 169

You can store 12 FM stations into preset memory.

Playing SiriusXM® Radio*

The diagram shows a central screen displaying the SiriusXM interface. On the left side of the screen, there is a vertical menu with icons for AUDIO, HOME, Volume (+/-), MENU, and BACK. The main screen shows 'MAP', 'SOURCE', 'CH 001 AAAAA', '12:34', 'CH 10', 'Live', and a 'Scan' button. Below the screen are several control buttons: 'Scan', 'Category', 'Channel', 'Skip', and a row of seven preset buttons labeled 'XXXXX'. Callout lines connect these elements to descriptive text boxes.

(Power/Audio) Icon — Press to turn the audio system on and off.

VOL (Volume) Icons — Select to adjust the volume.

(Menu) Icon — Select to display the menu items.

(Back) Icon — Select to go back to the previous display.

Scan Icon — Select to scan each channel.

Category Icons — Select ◀ or ▶ to display and select a SiriusXM® Radio category.

Channel Icons — Select ◀◀ or ▶▶ to the previous or next channel. Select and hold to rapidly skip 10 channels at a time.

Audio/Information Screen

Station Art

Open/Close Icon^{*1} — Displays/hides the detailed information.

Preset Icons — Tune the preset radio station. Select and hold the preset icon to store that station. Select 7 to display preset 7 onwards.

Skip Icons — Select ◀◀ or ▶▶ to change section in the channel. Select and hold to move rapidly within the section.

*1: Some or all of the lists may not be displayed.

* Not available on all models

To Change the Tune Mode

1. Select .
2. Select **Tune Mode**.
3. Select **Channel Mode** or **Category Mode**.

⌘ Playing SiriusXM® Radio*

In the channel mode, all available channels are selectable. In the category mode, you can select a channel within a category (Jazz, Rock, Classical, etc.).

There may be instances when SiriusXM® Radio does not broadcast all the data fields (artist name, title). This does not indicate a problem with your audio system.

SiriusXM® Radio stations load in ascending order, which can take about a minute. Once they have loaded you will be able to scroll up or down to make your selections.

Switching the Audio Mode

Press the **SOURCE** button on the steering wheel or select **SOURCE** on the screen.

➤ **Audio Remote Controls** P. 169

Tune Start:

When you change to a preset channel, a song being played on that channel restarts from the beginning with this function. This can be turned on or off from the **Audio settings** screen.

➤ **Customized Features** P. 248

■ Preset Memory

To store a channel:

1. Tune to the selected channel.
2. Press and hold the preset number for the station you want to store.
3. Select **Replace**.

You can also store a channel by the following procedure.

1. Tune to the selected channel.
2. Select the open/close icon to display a list.
3. Select the **Preset** tab.
4. Select and hold the preset number for the station you want to store.

■ Multi-channel preset (for music channels only)

You can store up to five of your preferred music channels per preset.

1. Tune a station.
2. Select the open/close icon to display a list.
3. Select the **Preset** tab.
4. Select and hold the preset number you want to add a music channel.
 - ▶ A message appears if there are no available presets.
5. Select **Combine**.

⊗ Playing SiriusXM® Radio*

You can store 12 SiriusXM® channels into the preset memory.

* Not available on all models

■ Listening to Featured Channels

Suggested channel listing received from SiriusXM® can be displayed and selected.

1. Select the open/close icon to display a channel list.
2. Select the **Channel List** tab.
3. Select the featured channel list title you want to listen to.
 - ▶ The selected channel list of the title is displayed.
4. Select the channel.

☒ Listening to Featured Channels

Up to three featured channels by SiriusXM® can be displayed.

Featured channel lists are at the top of the channel list.

Continued

■ Replay Function

The system can record up to the last 60 minutes of your currently tuned channel's broadcast, as well as the last 30 minutes of your preset channel's broadcast, starting from the moment you turn the vehicle on. If you tuned to a preset channel, the system records up to 60 minutes of a broadcast instead of up to 30 minutes. You can rewind and replay the last 30 or 60 minutes of a broadcast.

1. Select .
2. Select **Playback Position**.
3. Move the time marker to the position you want to replay.

To play or pause on playback mode:

1. Select .
2. Select **Play/Pause**.

■ Returning to real-time broadcast

1. Select .
2. Select **Play Live Broadcast**.

⊗ Replay Function

The system starts storing broadcast in memory when the power mode is turned ON. You can go back to the program from that point.

You can no longer replay any program once the power mode is turned off as it erases memory. You can check how long the program has been stored in memory from the audio/information screen.

After 30 or 60 minutes of recording the system will automatically start deleting the oldest data.

(A): Shows how much time the replayed segment is behind the real-time broadcast

(B): Replayed segment

(C): Length stored in memory

Playing an iPod

Connect the iPod using your dock connector to the USB port, then select the iPod mode.

▶ **USB Ports** P. 167

*1: Some or all of the lists may not be displayed.

Playing *Bluetooth*® Audio

Your audio system allows you to listen to music from your *Bluetooth*-compatible phone.

This function is available when the phone is paired and connected to the vehicle's *Bluetooth*® HandsFreeLink® (HFL) system.

📱 **Phone Setup** P. 282

*1: Depending on the *Bluetooth*® device you connect, some or all of the lists may not be displayed.

▶▶ Playing *Bluetooth*® Audio

Not all *Bluetooth*-enabled phones with streaming audio capabilities are compatible with the system.

For a list of compatible phones:

- U.S.: Visit www.acura.com/handsfreelink, or call 1-888-528-7876.
- Canada: For more information on smartphone compatibility, call 1-888-528-7876.

It may be illegal to perform some data device functions while driving.

Only one phone can be used with HFL at a time. When there are more than two paired phones in the vehicle, the first paired phone the system finds is automatically connected.

The connected phone for *Bluetooth*® Audio can be different.

If more than one phone is paired to the HFL system, there may be a delay before the system begins to play.

In some cases, the name of the artist, album, or track may not appear correctly.

Some functions may not be available on some devices.

If a phone is currently connected via Apple CarPlay or Android Auto, *Bluetooth*® Audio from that phone is unavailable. However, a second previously paired phone can stream *Bluetooth*® Audio by selecting **Connect** [📱] from the **Bluetooth Device List**.

📱 **Phone Setup** P. 282

■ To Play *Bluetooth*® Audio Files

1. Make sure that your phone is paired and connected to the system.
▶ **Phone Setup** P. 282
2. Select the *Bluetooth*® Audio mode.

If the phone is not recognized, another HFL-compatible phone, which is not compatible for *Bluetooth*® Audio, may already be connected.

■ To pause or resume a file

Select the play icon or pause icon.

■ Searching for Music

1. Select .
2. Select **Music Search**.
3. Select a search category (e.g., Albums).
4. Select an item.
▶ The selection begins playing.

☒ To Play *Bluetooth*® Audio Files

To play the audio files, you may need to operate your phone. If so, follow the phone maker's operating instructions.

Switching to another mode pauses the music playing from your phone.

You can change the connected phone in the *Bluetooth*® settings on the **Audio menu** screen by the following procedure.

1. Select .
2. Select **Setting**.

☒ Searching for Music

Depending on the *Bluetooth*® device you connect, some or all of the lists may not be displayed.
