

Locking and Unlocking the Doors

Key

This vehicle comes with the following keys:

Models without two-way keyless remote

Models with two-way keyless remote

Use the keys to start and stop the engine, and to lock and unlock all the doors and to open the trunk.

Key

All the keys have an immobilizer system. The immobilizer system helps to protect against vehicle theft.

➤ **Immobilizer System** P. 132

Follow the advice below to prevent damage to the keys:

- Do not leave the keys in direct sunlight, or in locations with high temperature or high humidity.
- Do not drop the keys or set heavy objects on them.
- Keep the keys away from liquids, dust and sand.
- Do not take the keys apart except for replacing the battery.

If the circuits in the keys are damaged, the engine may not start, and the remote transmitter may not work.

If the keys do not work properly, have them inspected by a dealer.

Models with two-way keyless remote

You can remotely start the engine using the two-way keyless remote.

➤ **Remote Engine Start*** P. 434

* Not available on all models

Built-in Key

Models without two-way keyless remote

Models with two-way keyless remote

The built-in key can be used to lock/unlock the doors when the keyless remote battery becomes weak and the power door lock/unlock operation is disabled.

To remove the built-in key, slide the release knob and then pull out the key. To reinstall the built-in key, push the built-in key into the keyless remote until it clicks.

Continued

■ Key Number Tag

Contains a number that you will need if you purchase a replacement key.

Low Keyless Remote Signal Strength

The vehicle transmits radio waves to locate the keyless remote when locking/unlocking the doors, opening the trunk, or to start the engine.

In the following cases, locking/unlocking the doors, opening the trunk, or starting the engine may be inhibited or operation may be unstable:

- Strong radio waves are being transmitted by nearby equipment.
- You are carrying the keyless remote together with telecommunications equipment, laptop computers, cell phones, or wireless devices.
- A metallic object is touching or covering the keyless remote.

▣ Key Number Tag

Keep the key number tag separate from the key in a safe place outside of your vehicle. If you wish to purchase an additional key, contact a dealer.

If you lose your key and you cannot start the engine, contact a dealer.

▣ Low Keyless Remote Signal Strength

Communication between the keyless remote and the vehicle consumes the keyless remote's battery. Battery life is about two years, but this varies depending on regularity of use. The battery is consumed whenever the keyless remote is receiving strong radio waves. Avoid placing it near electrical appliances such as televisions and personal computers.

Locking/Unlocking the Doors from the Outside

■ Using the Keyless Access System

When you carry the keyless remote, you can lock/unlock the doors and open the trunk. You can lock/unlock the doors within a radius of about 32 inches (80 cm) of the outside door handle. You can open the trunk within about 32 inches (80 cm) radius from the trunk release button.

■ Locking the doors

Press the door lock button on the front door.

- ▶ Some exterior lights flash; the beeper sounds; all the doors lock; and the security system sets.

▣ Locking/Unlocking the Doors from the Outside

If the interior light switch is in the door activated position, the interior light comes on when you unlock the doors.

No doors opened: The light fades out after 30 seconds.

Doors relocked: The light goes off immediately.

▣ **Interior Lights** P. 168

▣ Using the Keyless Access System

If you do not open a door within 30 seconds of unlocking the vehicle with the keyless access system, the doors will automatically relock.

You can lock or unlock doors using the keyless access system only when the power mode is in VEHICLE OFF.

The keyless access system will not lock the vehicle when a door is open.

- Do not leave the keyless remote in the vehicle when you get out. Carry it with you.
- Even if you are not carrying the keyless remote, you can lock/unlock the doors while someone else with the remote is within range.
- The door may be unlocked if the door handle is covered with water in heavy rain or in a car wash if the keyless remote is within range.
- If you grip a front door handle wearing gloves, the door sensor may be slow to respond or may not respond by unlocking the doors.

Continued

■ Unlocking the doors and trunk

Grab the driver's door handle:

- The driver's door unlocks.
- Some exterior lights flash twice and the beeper sounds twice.

Grab the front passenger's door handle:

- All doors unlock.
- Some exterior lights flash twice and the beeper sounds twice.

Press the trunk release button:

- The trunk unlocks and opens.
- A beeper will sound.

➤ **Using the Trunk Release Button** P. 129

►► Using the Keyless Access System

- After locking the door, you have up to 2 seconds during which you can pull the door handle to confirm whether the door is locked. If you need to unlock the door immediately after locking it, wait at least 2 seconds before gripping the handle, otherwise the door will not unlock.
- The door might not open if you pull it immediately after gripping the door handle. Grip the handle again and confirm that the door is unlocked before pulling the handle.
- Even within the 32 inches (80 cm) radius, you may not be able to lock/unlock the doors with the keyless remote if it is above or below the outside handle.
- The keyless remote may not operate if it is too close to the door and door glass.

Models with one display

The light flash, beep and door unlock mode settings can be customized using the multi-information display.

➤ **Customized Features** P. 99

Models with two displays

The light flash, beep and door unlock mode settings can be customized using the information screen or multi-information display.

➤ **Customized Features** P. 99, 316

■ Locking the doors (Walk away auto lock®)

When you walk away from the vehicle with all doors closed while carrying the keyless remote, the doors will automatically lock. The auto lock function activates when all doors are closed, and the keyless remote is within about 5 feet (1.5 m) radius of the outside door handle or trunk release button. Exit vehicle while carrying keyless remote and close door(s).

1. While within about 5 feet (1.5 m) radius of the vehicle.
 - ▶ The beeper sounds; the auto lock function will be activated.
2. Carry the keyless remote beyond about 5 feet (1.5 m) from the vehicle and remain outside this range for 2 or more seconds.
 - ▶ Some exterior lights flash; the beeper sounds; all doors will then lock.

▶ Locking the doors (Walk away auto lock®)

Models with one display

The auto lock function is set to OFF as the factory default setting. The auto lock function can be set to ON using the multi-information display. If you set the auto lock function to ON using the multi-information display, only the remote transmitter that was used to unlock the driver's door prior to the setting change can activate auto lock.

▶ **Customized Features** P. 99

Models with two displays

The auto lock function is set to OFF as the factory default setting. The auto lock function can be set to ON using the information screen or multi-information display.

If you set the auto lock function to ON using the information screen or the multi-information display, only the remote transmitter that was used to unlock the driver's door prior to the setting change can activate auto lock.

▶ **Customized Features** P. 99, 316

All models

After the auto lock function has been activated, when you stay within the locking/unlocking operation range, the indicator on the keyless remote will continue to flash until the doors are locked.

To temporarily deactivate the function:

1. Set the power mode to OFF.
2. Open the driver's door.
3. Using the master door lock switch, operate the lock as follows:
Lock → Unlock → Lock → Unlock.
► The beeper sounds and the function is deactivated.

To restore the function:

- Set the power mode to ON.
- Lock the vehicle without using the auto lock function.
- With the keyless remote on you, move out of the auto lock function operation range.
- Open any door.

⌘ Locking the doors (Walk away auto lock®)

When you stay beside the vehicle within the operation range, the doors will automatically lock approximately 30 seconds after the auto lock function activating beeper sounds.

When you open a door after the auto lock function activating beeper sounds, the auto lock function will be delayed until all doors are closed.

Under the following circumstances, the auto lock function will not activate:

- The keyless remote is inside the vehicle.
► The beeper will not sound.
- The keyless remote is taken out of its operational range before all the doors are closed.
► The beeper will sound.

The auto lock function does not operate when any of the following conditions are met.

- The keyless remote is inside the vehicle.
- A door or the hood is not closed.
- The power mode is set to any mode other than OFF.
- The keyless remote is not located within a radius of about 5 feet (1.5 m) from the vehicle when you get out of the vehicle and close the doors.

» Locking the doors (Walk away auto lock®)

Auto lock function operation stop beeper

After the auto lock function has been activated, the auto lock operation stop beeper sounds for approximately two seconds in the following cases.

- The keyless remote is put inside the vehicle through a window.
- You are located too close to the vehicle.
- The keyless remote is put inside the trunk.

If the warning beeper sounds, check that you are carrying the keyless remote. Then, open/close a door and confirm the auto lock activation beeper sounds once.

■ Using the Remote Transmitter

■ Locking the doors

Press the lock button.

Once:

- Some exterior lights flash, all the doors lock, and the security system sets.

Twice (within five seconds after the first push):

- The beeper sounds and verifies the security system is set.

■ Unlocking the doors

Press the unlock button.

Once:

- Some exterior lights flash twice, and the driver's door unlocks.

Twice:

- The remaining doors unlock.

1: Checking Door Lock Status P. 123

* Not available on all models

► Using the Remote Transmitter

If you do not open a door within 30 seconds of unlocking the vehicle with the remote transmitter, the doors will automatically relock.

You can change the relock timer setting.

► **Customized Features** P. 99, 316

You can lock or unlock doors using the remote transmitter only when the power mode is in VEHICLE OFF.

The remote transmitter uses low-power signals, so the operating range may vary depending on the surroundings.

The remote will not lock the vehicle when a door is open.

If the distance at which the remote transmitter works varies, the battery is probably low.

If the LED does not come on when you press a button, the battery is dead.

► **Replacing the Remote Battery** P. 552

You can customize the door unlock mode setting.

► **Customized Features** P. 99, 316

■ Locking/Unlocking the Doors Using a Key

If the lock or unlock button of the keyless remote does not work, use the key instead.

➤ Replacing the Remote Battery P. 552

Fully insert the key and turn it.

⌘ Locking/Unlocking the Doors Using a Key

When you lock the driver's door with a key, all the other doors lock at the same time. When unlocking, the driver's door unlocks first. Turn the key a second time within a few seconds to unlock the remaining doors.

You can customize the door unlock mode setting.

➤ Customized Features P. 99, 316

■ Locking a Door Without Using a Key

If you do not have the key on you, or if for some reason you cannot lock a door using the key, you can lock the door without it.

■ Locking the front doors

Push the lock tab forward ① or push the master door lock switch in the lock direction ②, and close the door.

■ Locking the rear doors

Push the lock tab forward and close the door.

■ Lockout prevention system

The doors cannot be locked when the keyless remote is inside the vehicle.

► Locking a Door Without Using a Key

When you lock the driver's door, all the other doors lock at the same time.

Before locking a door, make sure that the key is not inside the vehicle.

■ Checking Door Lock Status*

You can remotely check if your vehicle's doors are all locked or any are unlocked using the keyless remote from extended distances.

Press the lock button, the Amber (LEFT) LED blinks once. After three seconds, one of the following feedback will come:

- Green (center) comes on: Acknowledges that the doors are locked.
- Red (right) comes on: Acknowledges that doors are not locked, or any door is not completely closed.
- Red (right) blinks three times: The remote does not receive the door lock status from the vehicle.

* Not available on all models

▣ Checking Door Lock Status*

Operate the remote in an open space. If there are buildings or other obstacles between your vehicle and the remote, the remote may not work even within the operable range. However, the range required for unlocking the trunk and all the doors as well as activating the panic function is the same as that required for operating the standard keyless remote.

When checking the door lock status, you can also start or stop the engine.

▣ **Remote Engine Start*** P. 434

Locking/Unlocking the Doors from the Inside

■ Using the Lock Tab

■ Locking a door

Push the lock tab forward.

■ Unlocking a door

Pull the lock tab rearward.

►► Using the Lock Tab

When you lock the door using the lock tab on the driver's door, all of the other doors lock at the same time.

When you unlock the door using the lock tab on the driver's door, only the driver's door will unlock.

■ Unlocking Using the Front Door Inner Handle

Pull the front door inner handle.

- The door unlocks and opens in one motion.

Unlocking and opening the driver's door from the inner handle unlocks all the other doors.

To avoid all the doors unlocking, use the lock tab on the driver's door to unlock, then lock again before opening the door.

Models with one display

- This setting works for one time only. If you do not want all the doors to unlock all the time, customize the **Auto Door Unlock** setting to **Off** using the multi-information display.

➡ **Customized Features** P. 99

Models with two displays

- This setting works for one time only. If you do not want all the doors to unlock all the time, customize the **Auto Door Unlock** setting to **Off** using the multi-information display or information screen.

➡ **Customized Features** P. 99, 316

✕ Unlocking Using the Front Door Inner Handle

The front door inner handles are designed to allow front seat occupants to open the door in one motion. However, this feature requires that front seat occupants never pull a front door inner handle while the vehicle is in motion.

Children should always ride in a rear seat where childproof door locks are provided.

➡ **Childproof Door Locks** P. 126

■ Using the Master Door Lock Switch

Press the master door lock switch in as shown to lock or unlock all the doors.

Childproof Door Locks

The childproof door locks prevent the rear doors from being opened from the inside regardless of the position of the lock tab.

■ Setting the Childproof Door Locks

Slide the lever in the rear door to the lock position, and close the door.

■ When opening the door

Open the door using the outside door handle.

☒ Using the Master Door Lock Switch

When you lock/unlock either front door using the master door lock switch, all the other doors lock/unlock at the same time.

☒ Childproof Door Locks

To open the door from the inside when the childproof door lock is on, put the lock tab in the unlock position, lower the rear window, put your hand out of the window, and pull the outside door handle.

Auto Door Locking/Unlocking

Your vehicle locks or unlocks all doors automatically when a certain condition is met.

■ Auto Door Locking

■ Drive lock mode

All doors lock when the vehicle's speed reaches about 10 mph (15 km/h).

■ Auto Door Unlocking

■ Driver's door open mode

All doors unlock when the driver's door is opened.

»» Auto Door Locking/Unlocking

Models with one display

You can turn off or change to another auto door locking/unlocking setting using the multi-information display.

➤ Customized Features P. 99

Models with two displays

You can turn off or change to another auto door locking/unlocking setting using the information screen or multi-information display.

➤ Customized Features P. 99, 316

Opening and Closing the Trunk

Precautions for Opening/Closing the Trunk

■ Opening the trunk

Open the trunk all the way.

- ▶ If it is not fully opened, the trunk lid may begin to close under its own weight.

■ Closing the trunk

Keep the trunk lid closed while driving to:

- ▶ Avoid possible damage.
- ▶ Prevent exhaust gas from leaking into the vehicle.

☒ **Exhaust Gas Hazard** P. 69

Using the Trunk Opener

Pulling the trunk opener on the lower left of the driver's seat unlocks and opens the trunk.

■ Locking the trunk opener

You can lock the trunk opener with the built-in key.

Using the Trunk Release Button

Press the release button on the trunk lid after the doors are unlocked.

Even if the trunk is locked, you can open the trunk if you carry the keyless remote.

- The beeper sounds.

►► Using the Trunk Release Button

- If you forget the keyless remote inside, the beeper will sound and the trunk will not close.
- A person who is not carrying the keyless remote can unlock the trunk if a person who is carrying it is within range.
- If the beeper sounds after you close the trunk, move the keyless remote away from the trunk and close again.
- The keyless remote may not operate if it is too close to the trunk.

Using the Remote Transmitter

Press the trunk release button for approximately one second to unlock and open the trunk.

►► Using the Remote Transmitter

If the driver's door is locked, the trunk will automatically lock when you close it. Otherwise, you will have to lock it manually.

Trunk Main Switch

The trunk main switch disables the trunk release button on the remote transmitter and the trunk release button on the trunk lid to protect luggage in the trunk.

1. Make sure the rear seat-back is not folded down.
2. Turn off the trunk main switch in the glove box.
3. Lock the glove box.
4. Lock the trunk opener.

► **Using the Trunk Opener** P. 128

►► Trunk Main Switch

If you need to give the key to someone else, remove the built-in key from the keyless remote by sliding the release knob, and give the remote as a valet key.

Emergency Trunk Opener

The trunk release lever allows you to open the trunk from inside for your safety.

Slide the release lever in the direction of the arrow.

►► Emergency Trunk Opener

Parents should decide if their children should be shown how to use this feature.
