► **List of customizable options** P. 102

► **Example of customization settings** P. 106

Models with driving position memory system

Customization is possible when you see the driver's ID (**Driver 1** or **Driver 2**) on the screen. The driver's ID indicates which remote transmitter you have used to unlock the driver's door. The customized settings are recalled every time you unlock the driver's door with that remote.

Put the transmission into **P** before you attempt to change any customized setting.

Models with On Demand Multi-Use Display™

Customizing is also available from the information screen.

You cannot have **Vehicle Settings** displayed on the multi-information display while the information screen shows the same menu.

► **Customized Features** P. 316
