

## About Your Multi-View Rear Camera

The audio/information screen can display your vehicle's rear view. The display automatically changes to the rear view when the transmission is put into **R**.

### Multi-View Rear Camera Display Area

### About Your Multi-View Rear Camera

The rear camera view is restricted. You cannot see the corner ends of the bumper or what is underneath the bumper. Its unique lens also makes objects appear closer or farther than they actually are.

Visually confirm that it is safe to drive before backing up. Certain conditions (such as weather, lighting, and high temperatures) may also restrict the rear view. Do not rely on the rearview display which does not give you all information about conditions at the back of your vehicle.

If the rear camera lens is covered with dirt or moisture, activate the rearview camera washer or use a soft, moist cloth to keep the lens clean and free of debris.

➤ **Rear Wiper/Washers** P. 179

You can change the **Guidelines** setting.

➤ **Customized Features** P. 345

**Off:** Guidelines do not appear.

**Fixed:** Fixed Guidelines appear.

**Dynamic:** Guidelines that move according to the steering wheel direction appear.

**Both:** Fixed guidelines and dynamic guidelines appear.

\* Not available on all models

You can view three different camera modes on the rearview display. Swipe to highlight the view mode icon and click the A-Zone Touchpad to change the mode.

 **True Touchpad Interface** P. 245

: Wide view mode

: Normal view mode

: Top down view mode

- If the last used viewing mode was Wide or Normal view mode, the same mode is selected the next time you put the transmission into **R**.
- If Top down view mode was last used before you turned the power mode to OFF, Wide View mode is selected next time you set the power mode to ON and put the transmission into **R**.
- If Top down view mode was last used more than 10 seconds after you change from **R**, Wide View mode is selected the next time you put the transmission into **R**.
